

### Spectator and Spectator Boat Information and Guidelines

- Listen on VHF Channel 9 for official information from the Race Committee. DO NOT use Channel 9 for your personal conversations as this will interfere with race information broadcasts.
- In an emergency: Call “Prescott Coast Guard Radio” on Channel 16.
- Please comply with all instructions received from the Principal Race Officer to keep clear of the racing area as per the example below.

- Stay outside of the Course area as shown in the diagram. At the Start please stay 200 M to leeward of the starting line.

- When the starting sequence begins, ensure your sails are down.
- Stay out of the race course area. Never cut in front of a racing boat – proceed on a parallel or diverging course and do not “cut the corner” even if there is no racing boat on your side of the course.
- At the windward mark, keep your distance and position your boat’s bow into the wind and DO NOT block the wind.
- Be aware that the wind may shift and the angle of the race course and sailboats may change accordingly.
- Observe the 5 knot speed limit when near the race course. Observe the “Rules of the Road” and use common sense.
- MIND YOUR WAKE especially in light air. Even if you are well outside the race course area, your wake can carry onto the race course and affect the racing.
- Obey the instructions of the Race Committee at all times.
- Enjoy the racing and please allow the racing boats to do the same!

#### **Information for Spectators**

- Please ensure to arrive on time to your allocated boat.
- Be sure to wear non-marking shoes.
- Please bring your own food and enough water for yourself the full day.
